

CITEL VP TO BE KEYNOTE SPEAKER AT 2010 ITPX/NCUG CONFERENCE IN LAS VEGAS

"THE BEST OF BOTH WORLDS: CENTREX HANDSETS IN A VOIP ENVIRONMENT"

Amherst, NY April 26, 2010 – Citel. The VoIP Migration Company™ is pleased to announce that Ian Gomm, VP, Sales & Marketing will be a keynote speaker at the upcoming 2010 ITPX/NCUG Conference, taking place at the Flamingo Las Vegas May 3-6. This annual Conference and Trade Show, offers over 20 educational sessions and an Exhibit Hall showcasing leading Technology solutions, providing opportunities for networking, education and needs assessment supported by the industry's leading telecommunication service providers, manufacturers, vendors and subject matter experts.

In 2009, the former National Centrex Users Group was integrated back into the International Telecommunications Professionals Exchange ("ITPX") as a separate educational track meeting the needs of the Technology Professionals managing 10+ million Centrex lines in services in the United States and Canada. Centrex services are a separate track within the Conference educational programs.

Ian Gomm, VP, Sales & Marketing will be the keynote speaker at the second Plenary Session on the final day of the conference. As developer of the Portico™ TVA™, Citel enables companies to migrate to IP telephony by leveraging their existing wiring infrastructure. Existing legacy phones, analog, digital and Centrex, are converted to SIP endpoints simplifying VoIP migration. Ian Gomm will be discussing the existing Centrex market and how Centrex providers can leverage both their and their customers' infrastructure to simplify future moves to VoIP in a simple and cost effective manner.

In addition, Citel will have a booth at the accompanying Exhibition demonstrating its VoIP migration technology and demonstrating the ability to migrate to VoIP without the need to "rip and replace". Citel will be demonstrating how it can assist show attendees leverage their existing Centrex business to take advantage of new VoIP offerings, both premise based and hosted.

About Citel Technologies, Inc.

Citel enables SMBs, large enterprises and service providers to realize the cost and productivity benefits of IP telephony while at the same time leveraging their existing PBX infrastructure. Businesses with single or distributed locations and PBX vendors can now deploy next-generation IP applications and services at their own pace, with minimal business disruption. Service providers can deploy Hosted IP telephony services quickly, without having to "rip and replace" existing enterprise PBX handsets and LAN cabling. Citel now offers its own IP PBX and, in cases where rip and replace is applicable Citel now offers its own IP Telephones. Citel is based in Amherst, New York with offices in Loughborough, England (UK) and Toronto, Canada.
