## Portico™ Telephone VoIP Adapter (TVA™) 5.01.0 release build available

Citel is pleased to announce availability of several new features, being released as version 5.01.0, for its award-winning Portico™ Telephone VoIP Adapter (TVA™).

New features in this release include the following:

- Broadsoft BLFs, using Resource Lists.
- French language support for prompts to the phones.
- Support for Nortel-emulating Spectralink wirelesss phones
- Support for the T24 add-on to Nortel T7316 phones.
- 

### Overview

Citel's Portico TVA is a network-edge device that enables delivery of VoIP features and applications to digital (PBX), P phone (Centrex), and analog handsets, over existing cabling. The new software is available to TVA users who are in warranty or under maintenance contract.

### Feature Pack Item Descriptions

#### 1. Broadsoft BLFs, using Resource Lists.

The BLF URI is entered on Line Config > Advanced

Buttons are configured as "BLF (Broadsoft)"

Button configuration strings can be blank, in which case numbers are allocated to buttons when the NOTIFY arrives.

#### 2. French language support for prompts to the phones.

Selectable on a per phone basis.

#### 3. Support for Nortel-emulating Spectralink wirelesss phones

Spectralink models that emulate Norstar/BCM or Meridian phones can now interop with TVA. Details of models to follow.

#### 4. Support for the T24 add-on to Nortel T7316 phones.

This addon unit is now supported. All available TVA button and indicator features can be assigned. Currently only one addon per T7316.

## Additional changes

- It is now possible on the Console “vox” menu to hear a particular audio tone.
- Ireland country code is now selectable by entering 353 when prompted for country in the Wizard. This code includes a Call Queued tone, and other minor differences in tones and timing.
- Conference/Transfer button now only does conference and transfer, it no longer gives access to waiting/held calls. i.e. it now behaves differently to the “hook-flash” button.
- Improvements to SIP BYE handling to interop effectively with latest Broadsoft versions.

## Affected Citel Products

Product Name	Model Description	Product Code	Features
Portico TVA12A	12-port analog-compatible, 0 FXO	H-SIP3A-RUC12	1 - 4
	12-port analog-compatible, 1 FXO	H-SIP3AZ-RUC12	1 - 4
	12-port analog-compatible, 2 FXO	H-SIP3AY-RUC12	1 - 4
Portico TVA24A	24-port analog-compatible, 0 FXO	H-SIP3A-RUC24	1 - 4
	24-port analog-compatible, 1 FXO	H-SIP3AZ-RUC24	1 - 4
	24-port analog-compatible, 2 FXO	H-SIP3AY-RUC24	1 - 4
Portico TVA12D	12-port digital-compatible, 0 FXO	H-SIP3D-RUC12	All
	12-port digital-compatible, 1 FXO	H-SIP3DZ-RUC12	All
	12-port digital-compatible, 2 FXO	H-SIP3DY-RUC12	All
Portico TVA24D	24-port digital-compatible, 0 FXO	H-SIP3D-RUC24	All
	24-port digital-compatible, 1 FXO	H-SIP3DZ-RUC24	All
	24-port digital-compatible, 2 FXO	H-SIP3DY-RUC24	All
Portico TVA12P	12-port P phone-compatible, 0 FXO	H-SIP3P-RUC12	1 - 4
	12-port P phone-compatible, 1 FXO	H-SIP3PZ-RUC12	1 - 4
