

Portico™ Telephone VoIP Adapter (TVA™) 5.02.0 Release build available

Citel is pleased to announce general availability of several new features, being released as version 5.02.0, for its award-winning Portico™ Telephone VoIP Adapter (TVA™).

New features in this release include the following:

- Additional support for Alcatel phones
- Enhanced Conference/Transfer key for general call control on entry level phones.
- Systems settings menu offers further customization options.

Overview

Citel's Portico TVA is a network-edge device that enables delivery of VoIP features and applications to digital (PBX), P phone (Centrex), and analog handsets, over existing cabling. The new software is available to TVA users who are in warranty or under maintenance contract.

Feature Pack Item Descriptions

1. Additional support for Alcatel phones

New phones supported are Alcatel Reflex digital phones:

4004, 4020* – along with existing support for 4010.

*Note that the Qwerty keypad at the foot of the 4020 is not currently activated.

2. Enhanced Conference/Transfer key for general call control on entry level phones.

The Conference/Transfer key now indicates (by flashing its LED) if a call is being held for transfer or adding to a conference. The Conference/Transfer LED will indicate (On) if an ad-hoc conference is in progress.

Any held call can be picked up with Conference/Transfer key – typically by pressing it twice.

3. Systems settings menu offers further customization options.

The new system settings are:

- Disable timeout on administrator web login
- Disable transfer to busy extension
- Select short call waiting tone
- Control of visibility of Sylanro menu items
- Ability to block early media and retain ring back tone

Additional changes

- Unit's IP address can be read from Phone Menus under "IP Info".
- Avaya/Definity phones generate "comfort beep" for on-hook dialing.

Affected Citel Products

Product Name	Model Description	Product Code	Features
Portico TVA12A	12-port analog-compatible, 0 FXO	H-SIP3A-RUC12	1 - 4
	12-port analog-compatible, 1 FXO	H-SIP3AZ-RUC12	1 - 4
