

Portico™ Telephone VoIP Adapter (TVA™) BETA 6.07.1 release build.

Citel is pleased to announce that it has an interim release of functionality for its award winning Portico™ Telephone VoIP Adapter (TVA™) with the new firmware being released as version 6.07.1. New features in this release are the following:

- Hotline Speed-dial feature added. This allows a Speed-dial key to be configured with hotline functionality. Meaning that if the key is pressed it will dial immediately the configured number, like a speed-dial, but will dial using a particular line, so once pressed it acts like a line-appearance key. There is help text on the configuration and operation on the Speed-dials/BLFs pages.
 - Note. If a Hotline Speed-dial key is assigned to a lower key number than the first line-appearance key then going off-hook will trigger immediate hot-line dialing.
- Conference/Transfer key enhancement. This key will now seize any line appearances that are available on the phone, regardless of whether they are on the primary line (line 1).
 - Note, care should be taken if lines are on different SIP servers, as although Conference will be available, Transfer completion will not.
- A new button appears on the Maintenance page to allow easy access to the Telnet interface using the Auxiliary LAN. The Aux LAN can be used as a management interface for customers wishing to separate management traffic from SIP and audio traffic.

Overview

Citel's Portico TVA is a network-edge device that enables delivery of VoIP features and applications to digital (PBX), P phone (Centrex), and analog handsets, over existing cabling. The new software is available to users whose product is in warranty, under a maintenance contract or who are eligible to purchase the latest firmware.

Affected Citel Products

Product Name	Model Description	Product Code
Portico TVA12A	12-port analog-compatible, 0 FXO	H-SIP3A-RUC12
	12-port analog-compatible, 1 FXO	H-SIP3AZ-RUC12
	12-port analog-compatible, 2 FXO	H-SIP3AY-RUC12
Portico TVA24A	24-port analog-compatible, 0 FXO	H-SIP3A-RUC24
	24-port analog-compatible, 1 FXO	H-SIP3AZ-RUC24
	24-port analog-compatible, 2 FXO	H-SIP3AY-RUC24
Portico TVA12D	12-port digital-compatible, 0 FXO	H-SIP3D-RUC12
	12-port digital-compatible, 1 FXO	H-SIP3DZ-RUC12
	12-port digital-compatible, 2 FXO	H-SIP3DY-RUC12
Portico TVA24D	24-port digital-compatible, 0 FXO	H-SIP3D-RUC24
	24-port digital-compatible, 1 FXO	H-SIP3DZ-RUC24
	24-port digital-compatible, 2 FXO	H-SIP3DY-RUC24
Portico TVA12P	12-port P phone-compatible, 0 FXO	H-SIP3P-RUC12
	12-port P phone-compatible, 1 FXO	H-SIP3PZ-RUC12
	12-port P phone-compatible, 2 FXO	H-SIP3PY-RUC12
Portico TVA24P	24-port P phone-compatible, 0 FXO	H-SIP3P-RUC24
	24-port P phone-compatible, 1 FXO	H-SIP3PZ-RUC24
	24-port P phone-compatible, 2 FXO	H-SIP3PY-RUC24
Portico TVA12P DC	12-port P phone compatible DC PSU	H-SIP3P-RUC12DC
Portico TVA24P DC	24-port P phone compatible DC PSU	H-SIP3P-RUC24DC
